Simple and Easy-to-Use Design

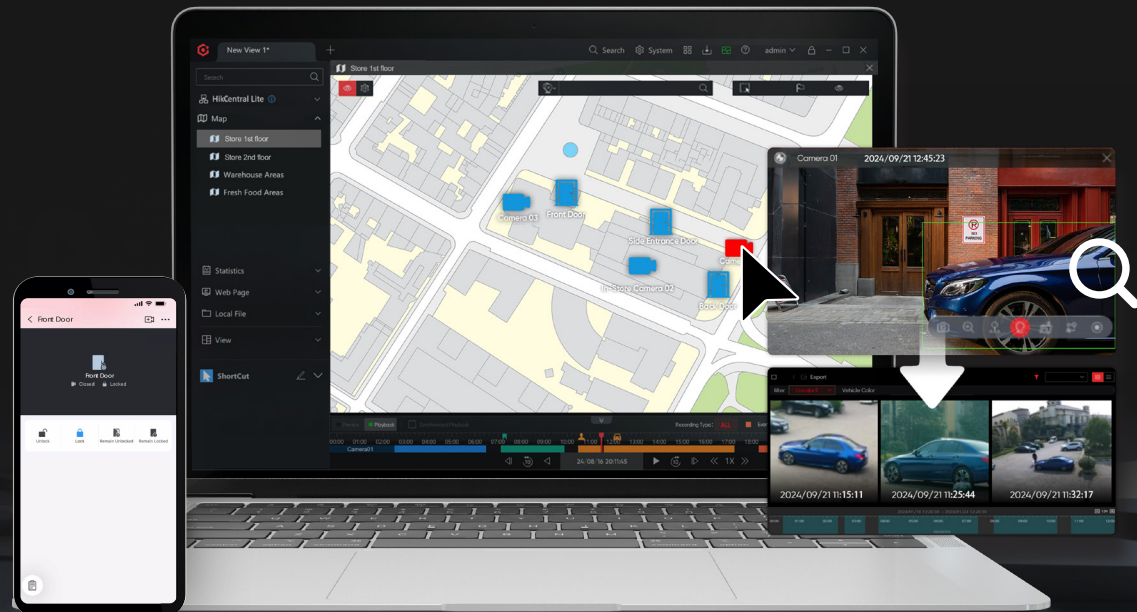

HikCentral Lite is designed for simplicity, allowing even beginners to manage their security systems with ease. With intuitive controls and smart features, managing your security system is simple and effective.

- Organize all information on a single view using drag-and-drop tools
- Access versatile options with a simple right-click
- Access to most-used features with shortcuts

- Real-time monitoring with on-map view
- Manage PTZ functions with a few clicks
- Rapidly find recordings with advanced VCA and object search
- Seamlessly switch between live view and playback
- Filter by labels directly in the view

Operate on the go – manage your security system via the mobile app, ensuring control from anywhere.

Efficient Lifecycle Management

HikCentral Lite streamlines the lifecycle management, making setup, activation, migration, and upgrades fast and hassle-free. The entire process is smooth, ensuring your system remains up-to-date with minimal effort.

Core Benefits

Seamless Video Experience

Quick live view and playback

Automatic main and sub-stream switching for fast access

Efficient target search

VCA and target retrieval display results instantly, with one-click playback

AcuSeek through natural language

Easily search for persons, vehicles, and objects with simple commands

Intelligent vehicle and personnel management

Manage lists, trigger alarms, and conduct attribute-based searches

Intuitive PTZ control

Easily adjust zoom, pan, speed, presets, and patrols within the video interface

Robust Integration Capabilities

ONVIF Protocol Compliance

Allows for incorporating cameras from popular third-party security solutions

Native API / SDK

Connect video devices from other leading manufacturers

Comprehensive Statistics

Diverse data analysis provides multiple statistical reports with options to export detailed data summaries.

Efficient Access Control

Multiple Credential Options

Convenient access via card, fingerprint, face, iris, or PIN code

Quick Batch or Temporary Access

Instantly assign and activate access permissions for hassle-free daily management

Real-Time Door Status Monitoring

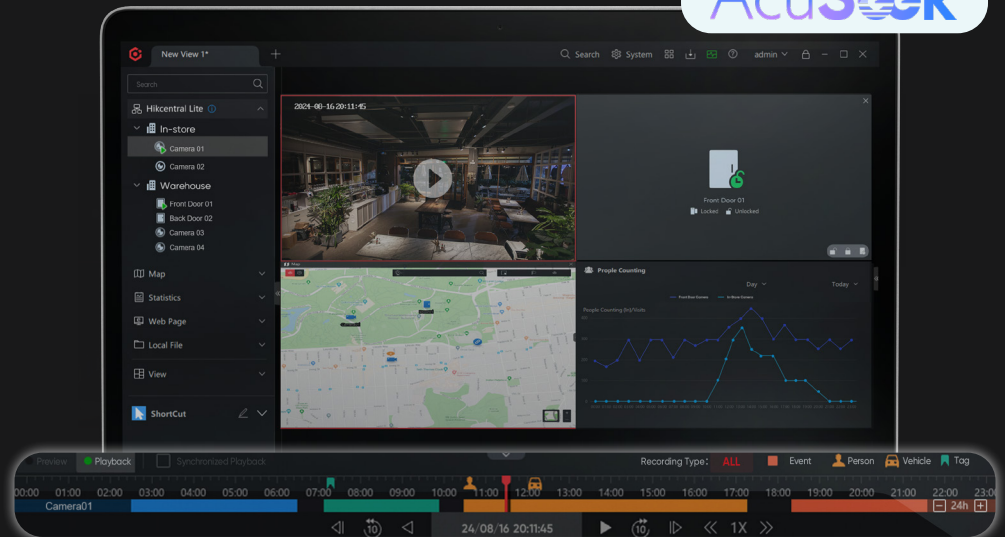

Monitor View or e-maps for prompt detection and resolution of anomalies

Access-Video Linkage for Verification

Effectively reduces false alarms

AcuSeek

High-Performance Video Storage

Maximized storage with minimized costs

HCL server-based storage for low-cost single-PC deployment and batch recording configuration

Large capacity with great performance

128 dual-stream feeds and up to 600 Mbps throughput

Open ecosystem

Supports ONVIF protocol, third-party cameras, APIs, and SDK integration

Seamless stream operations

Smooth switching between sub-streams and event-triggered main streams

Unified App Experience

Convenient hybrid cloud

Convenient access via card, fingerprint, face, iris, or PIN code

Intelligent multi-mode search

AcuSeek, AcuSearch, and Smart Search for faster and more flexible video retrieval

Mobile view & control

Remote live view, playback, and access control via the App

Real-time alarm response

Quickly locate and track alarm events

Scalable Cascaded Server

Unified multi-server management

Cascaded multiple servers for live view, playback, alarm receiving, and video search in one platform

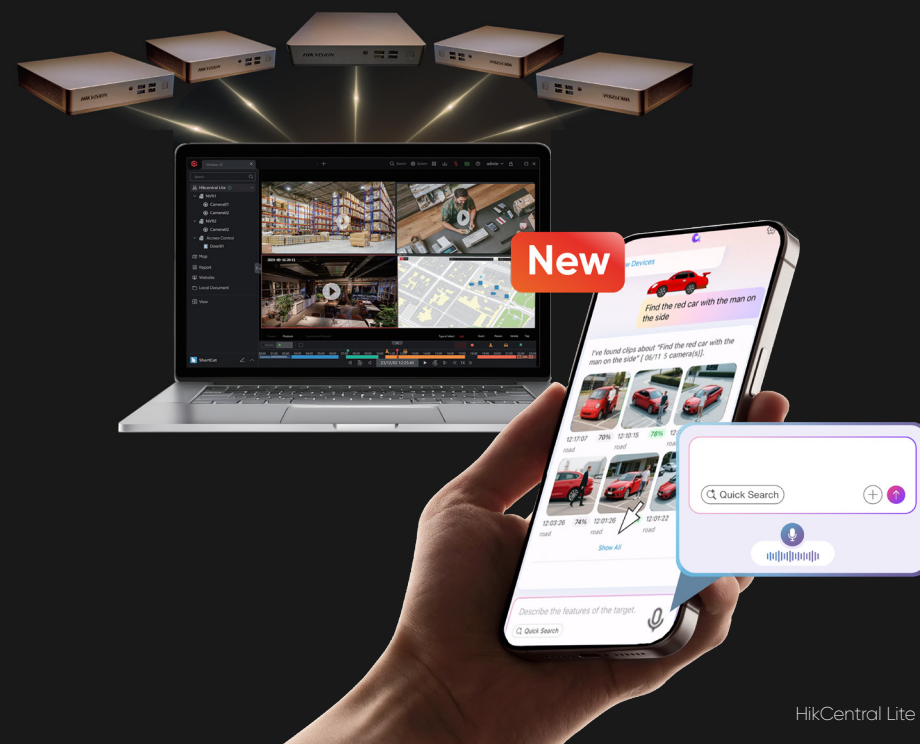

Large-scale video management

Scale up to 512 channels by cascading up to 20 HikCentral Lite servers

Stable high-capacity performance

Breaks through single-server limits to deliver stable, high-capacity video surveillance

Upgrade Benefits in V1.4 – Coming Soon

Time Attendance

Flexible Shift Scheduling

- Select staff, time, and date to set shifts
- Modify via calendar—right-click to update

Fast Attendance Processing

- Handle attendance corrections and leave requests instantly
- Manual or automatic calculation for accurate, real-time results

Visitor Management

Self-Service Visitor Registration

Self-register and enter sites more flexibly

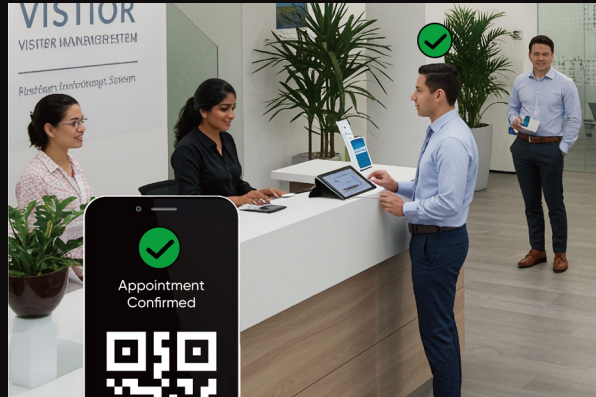

Rapid Visitor Approval

Authorized staff approve requests quickly via mobile or desktop

Quick Visitor Check-In

Add visitors directly in-app and assign credentials instantly

Intrusion Detection

Alarm Device Integration

Support AX PRO and AX HYBRID PRO devices via OTAP protocol for seamless integration

Real-Time Zone Surveillance

Centralized overview of subsystems with real-time alarm zone status

Software License

- 16 Free video channels, with scalability up to 128 channels
